

Demolition and Sorting Grab with *HPXdrive* D09HPX

Thanks to the revolutionary *HPXdrive* and the new flat rotator the **D09HPX** demolition and sorting grab is ideal for excavators with up to 9t operating weight.

The TOP 10 features of the *HPXdrive*

1. high, constant closing forces
2. maintenance free
3. integrates pressure relief valves
4. compact design without protruding parts
5. no short hoses
6. completely synchronized shell function
7. low overall height due to *HPXdrive*
8. versatile
9. easy access design
10. long life - up to 50% longer service life than other grabs

Perforated shells let through fine dust and gravel
